# Best products for a smooth operation

Your MRI environment needs to have the best possible accessory equipment. Products that function favorably around highly specialized equipment in surroundings that create very stringent demands. IPU meets this challenge by developing and manufacturing safe and easy to use quality products for radiology centers, clinics and hospitals.

IPU products for the MRI environment are made of high quality PVC and non-magnetic metal parts. They are rated for MRI installations up to 3 Tesla and their distinct design makes it easy to recognize them as MRI Safe. If needed and upon demand IPU can provide all PVC products that are safe for up to 7 Tesla and beyond.

## **This is what makes IPU products special:**

They are made of high quality, very sturdy PVC components that are friendly to the touch and are bio-compatible. Finished products need very little maintenance and easily meet the hygienic requirements of today.

**We welcome customer specific product challenges.**

- 24" puncture safe wheels
- All plastic swivel casters
- Rear anti-tip protection
- Sturdy and stable, supports up to 250 lbs
- UV resistant and compatible with most disinfectants
- 2 year warranty

# Multi purpose- and Isolation Carts

The fight against infection is an ever growing concern in health facilities. Working with health specialists, IPU has developed a number of carts that fulfill practical needs in this ongoing fight. These carts are lightweight, mobile and can be placed quickly where needed – in front of an isolation room or inside the air lock area.

They offer ample space in transparent drawers for all necessities like gloves, gowns, face masks etc. Their top plate offers plenty working and writing space.

Made with IPU specific plastic components and rolling on 4 twin-wheel swivel casters 3" – 2 locking – ideally suitable for this demanding environment.

## MRI-ISO ST 15

- 4 MRI compatible 3" twin-wheel casters, 2 locking
- 4 transparent drawers
