Quick

CONNECT SYSTEM

IPU is excited to introduce our new Quick Connect System. This toolfree innovation makes assembly of PVC products quick and easy.

The Quick Connect System also reduces shipping dimensions, which greatly improves the efficiency and costs of our shipment. Your product is now just a "click" away from being assembled!

Your Benefits at a Glance:

EFFORTLESS ASSEMBLY:

Connect parts quickly and easily, without the need for any tools.

ECO-FRIENDLY:

Our unique design significantly reduces shipping costs and packaging materials, saving you money and protecting the environment!

EASY REPLACEMENT:

If a part needs to be replaced, it can easily be done without any additional tools – keeping your products in top shape.

With the IPU Quick Connect System, you choose efficiency, sustainability, and ease of use. Say goodbye to complicated assemblies and enjoy the convenience only IPU products can provide.

Discover and benefit now!

For more information, please watch the video

- 1.** Insert casters into fittings. Listen for the click.
- 2.** Flip frame over and place shelf on base frame.
- 3.** Insert 4 vertical pipes in base frame.
- 4.** Place shelf frame on vertical pipes.
- 5.** Place top frame on vertical pipes.
- 6.** You only need a few minutes and the cart is ready.
